Sustainability at NMC. 39

The background of the entire image is a close-up, high-angle view of a swimming pool's surface. The water is a vibrant blue, and a white grid pattern, likely from a pool cover or a net, is visible across the entire surface. The grid consists of small, irregular squares. The lighting creates a shimmering effect, with bright highlights and darker blue shadows across the grid.

Aquafun & Aquasport

Our COMFY® NOODLE is the ideal companion on the beach, at the lake or in the swimming pool. Thanks to their flexibility and sturdiness, the Noodles are particularly suited to rehab exercises or water aerobics.

COMFY® NOODLE also combine fun and safety for children who just hang on to the Noodle and feel themselves glide through the water. Super fun swimming sensations!

The COMFY® PONY WHISTLE is an absolute favourite. Which child doesn't dream of having his own pony and the adventures it shares as a knight or cowgirl?

Aquafun & Aquasport

The **COMFY® CONNECTOR** is a valuable educational **building element** that can be used to build own fanciful constructions. The sky's the limit when it comes to a child's fantasy and creativity.

The boards are used for **paddling, splashing and swimming** lessons. These boards offer more than just fun; they help strengthen kicking strokes and improve swimming techniques.

The **COMFY® AQUAFIT NOODLE** is incredibly versatile in the fields of fitness and rehab. The new ergonomic design offers particularly good protection for the joints, as well as being handy and delivering convincing results in terms of prevention and rehabilitation of bone and joint problems. Its hard inner core provides firmness which offers optimum training possibilities in rehab treatments or water gymnastics.

The **COMFY® AQUAFIT SMILE** is a real eye-catcher and its jolly looks immediately put you in a good mood. The handy, easy-to-use Smiles increase water resistance, making them particularly well suited for building up muscles, while also promoting balance and coordination through specific training exercises.

The **COMFY® PRO AQUAJOGGING belt** and the **COMFY® PRO BOARD** are primarily designed for Aquasport.

A close-up, slightly blurred photograph of a light-colored wooden floor with a visible grain pattern. The floor is composed of several planks running diagonally across the frame. A dark, thin line, possibly a shadow or a joint, runs horizontally across the upper portion of the image.

Fitness & Rehabilitation

The COMFY® NOODLE is a multifunctional, easy to use and beneficial sport aid. In addition to being used to **prevent and rehabilitate** from illnesses and injuries, it is also a useful **training aid** for those with a physical disability. The sense of weightlessness in the water is a wonderful benefit.

According to physical therapists, the COMFY® FOAM ROLLER is particularly suited to rehabilitation and prevention training. Activating the deep-lying muscles relieves back pain and improves posture. Body builders use the COMFY® FOAM ROLLER to **loosen muscles** before and after training.

Garden & Leisure

All the COMFY® NOODLES can be used out of the water in all sorts of different ways. On the beach, at home or in the garden; with a little imagination the Noodles can be transformed into jump ropes, witches' broomsticks or swords. They are child friendly and safe and the kids will just love exercising.

The COMFY® PONY WHISTLE makes funny noises and is the children's favourite.

Car & Safety

Thanks to the sticky back-strip, the shock-absorbent COMFY® DOOR PROTECTOR is quick and easy to place on the garage wall and protects car doors from scratches and dents.

The COMFY® CAR PAD is ideal to have along in the car as it ensures better visibility on the safety lane and makes changing a tyre a great deal safer.

Thanks to the COMFY® CAR ECOSEAT KNEEPAD car repairs no longer have to lead to bruised knees. What's more, the surface is water resistant and therefore easy to clean.

Lying on your back or leaning on your elbows, with the exceptionally light COMFY® CAR MAT you can work on, or better said, under your car in a comfortable and back-friendly manner.

Sport Range

Sport events bring people together. They are synonymous with sticking together, supporting your team and of course cheering and celebrating together.

The COMFY® PAD and ECOSEAT HAND are the ideal seat cushions for sporting events. These cushions will turn any surface into a comfortable place to sit: benches, beer crates or just on the ground. Don't need a cushion? Then use the hand to cheer on your team.

The COMFY® PAD DRINK TRAY is made for the perfect party. Partygoers can carry six drinks at once with this unique gadget. No more offside spillage when supporting your team on the big screen or live in the football stadium. And no more tipped-glass fouls with this Drink Tray.

Test reports & Environment NMC COMFY®

Our products are TÜV or SGS certified and therefore comply with the specified standards.

- The COMFY® Noodle range, the COMFY® Kick, the COMFY® Twin as well as the COMFY® PRO Board are certified by the TÜV conform EN 13138-2: **Buoyant aids for swimming instruction.**
- The COMFY® Connector range is certified by SGS conform EN 71: **Safety of toys.**

Our foams are **REACH conform** and contain neither any polycyclic aromatic hydrocarbons (according to afPS GS 2014:01 - PAH) nor phthalates (according to Directive (EU) 2015/863 amending Annex II to Directive 2011/65/EU).

Therefore, our foams do not constitute any danger.

You can request the different test reports from your contact person.

Sustainability at NMC

JUST WHAT DO WE MEAN BY „SUSTAINABILITY“?

Economic, socially responsible and environmentally conscious behavior go hand in hand here at NMC. These are the three principles that form what is called the „three-pillar model“ of sustainable development. As a family business, we want to ensure that we can handle whatever the future throws at us. We are helping towards securing sustainable mitigation of climate change and environmental protection at several levels simultaneously.

NMC's COMMITMENT TO CLIMATE PROTECTION

NMC sees climate change mitigation as an ever-evolving process. That is why we are constantly working to further optimize our products and manufacturing processes.

Our ambition is to achieve the maximum improvements in energy efficiency (100% clean energy) and to drive down CO₂ emissions to the bare minimum. Moreover, thanks to our clever solutions, almost 100% of our production waste is reused in a closed cycle. The group is certified ISO 14001 – the international standard for environmental management.

THE NEXT STEP: DEVELOP CIRCULAR SOLUTIONS

Today, „recycling“ means the collection and reprocessing of used products into other, usually less-demanding products. Currently, foam products are partially recollected and transformed into recycled products.

NMC is looking into ways to turn recycled foam products back into entirely new foam products. This new level of circular economy allows the opportunity for an endless repeat of the recycling circle...
